

CHAMPION

WHAT IS CHAMPION?

Champion is a powerful and complete bio stimulant that concentrates important compounds to feed soil microbiology, to promote plant growth, sustained health and nutrient uptake capability. It includes proteins, amino acids, antioxidants, plant growth hormones, complex carbohydrates, calcium, magnesium, zinc, and A, C, E, B - vitamins, all from high-quality sources.

BENEFITS OF CHAMPION APPLICATION

- Protein Hydrolysate boosts nitrogen levels, enhancing plant and soil microbial health for robust growth.
- Ecklonia Maxima enriches plants with key nutrients, spurring growth and sustainable yield.
- Fulvic Acid optimizes nutrient absorption, improves soil structure and enhances microbial activity.
- Citric Acid boosts plant energy production, preserving soil health for optimal plant metabolism.
- Crop4Life Technology elevates photosynthesis and hydration, increasing energy production and disease resistance.
- The harmonic synergy of its ingredients, each enriching the soil, feeding the microbiota, nourishing the turf, and supporting its growth, creating unmatched soil conditioning.

SPECIFICATIONS

Total Nitrogen (N)	11.11 g/L
Phosphorus (P)	1 295.37 mg/L
Potassium (K)	1 882.23 mg/L
Sulfur (S)	5 303.52 mg/L
Acidity (pH)	3.06 Neat at 20,4°C

HOW TO APPLY

3-5L per Ha

Every two weeks, do not dilute more than 1:500 with foliar application.

10-20L per Ha

For sportsturf under high stress.

To agitate, shake well before use.
Store at room temperature.
Keep container closed when not in use.
Triple rinse once decanted.

PACKAGING

1L - 20L

ENVIRONMENTAL IMPACT

Champion is approved for restricted use in organic systems and is designed to minimize environmental impact. It is not harmful to aquatic life when used according to recommended guidelines.

COMPATIBILITY

Champion can be used safely in conjunction with all products that do not disrupt beneficial biological interactions within the soil and plant ecosystem.

SAFETY MEASURES AND HANDLING

- It is advisable to do a miscibility test prior to mixing Ukelp with other chemicals.
- Do not store product in direct sunlight.
- Store in a cool place.
- Consult the supplier in the event of any uncertainty.
- Keep away from children, uninformed people, animals and foodstuffs.
- Use only as directed.
- If medical advice is needed, have product SDS and container or label at hand.
- Read label before use.
- Dispose of the contents/containers in accordance with the current legislation on waste treatment.
- Shake well before use.
